Newark, N.J.

Dear Eddie:

How has everything been going since I last saw you? The Captain that took the pictures had an accident with them. I'll explain more in detail when I see you.

I am writing to you as to the possibility of getting a show or a group of entertainers from Newark to come down to our building on a scheduled date in the very near future. I can arrange my program for any night that is convenient for you.

All the boys and myself are depending on you to bring a good show. I know that transportation these days is quite a problem, but I hope that things will work out favorably so that you and your group can come and entertain us.

Hoping to hear from you soon, I remain

Sincerely yours,

Carl J. Leftwich
